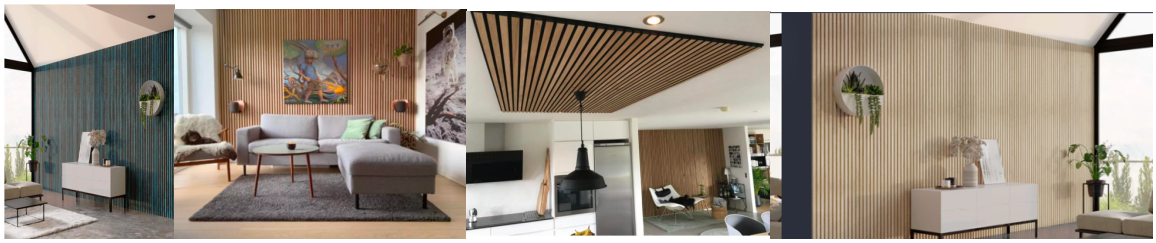
ACOUSTIC WOODEN SLAT PANELS

WALLS, CEILINGS AND COUNTERS



Acoustic wooden slat panels are one of the most effective solutions to sound absorption while reducing noise reverberations within a space. It is a state of the art, luxury, noise reducing wood panelling solution.

Each panel has been handcrafted not only to transform projects visually but also to create a more quiet, comfortable environment.

Medici works with a number of manufacturers in South Africa and overseas. Let us know your requirements and we will send you full details and specifications. For overseas customers we will arrange direct shipment from our mills to anywhere in the world.

The slat panels come in a variety of colours - oak, walnut, pine, ebony and a wide variety of other wood finishes.

Sizes vary from 2700 x 600, 2400 x 600, 1980 x 600, 800 x 600, 1200 x 600 with a variety of thicknesses and spacings.
