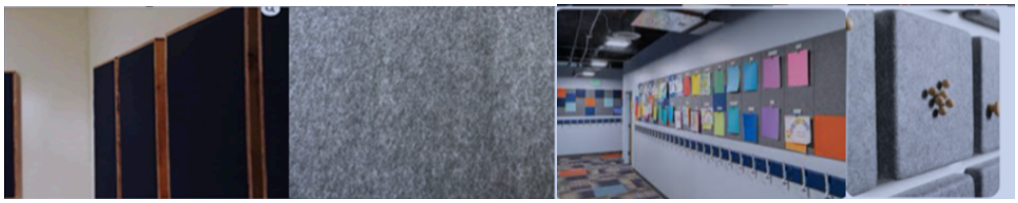
PET FELT Panels of 2440 X1220 X 9mm (2,97 SQ M)



The full panels can be glued to the wall or cut to any size needed for different areas. It is thicker and more durable than cork and is also acoustic in that it absorbs sound and prevents echo's and reverberations It is also available in many colours. We can quote for cut length in any size and colour, supply the glue for the installation and the installation itself depending on location.

PET FELT COLOURS
